DATA CONVENTIONS

Identification of Hybrid Animals

If a hybrid animal was discovered in the records...
(Example) 283 in the A.g.r. studbook
Dam is an A.g.r. and sire is an A.b.h.
I took the animal's number and put an "H" either before or after it to indicate hybrid status
I then renamed the Dam with her number (32) followed by an A.g.r. to indicate her species.
I followed suit with the sire # 18 became 18ABH for A.b. hybridus.
After renaming everyone, I put the original hybrid animal in both the A.g.r. and A.b.h. studbooks.
I then put the sire and dam in BOTH studbooks as well with their "new" numbers to indicate their status.

BROWNSVIL Animals

All originating BROWNSVIL animals were considered to be wild born.

LIST OF INSTITUTIONS

Mnemonic	Institution
A&BMONKEY	
ABILENE	Abilene Zoological Gardens
