## **ACKNOWLEDGMENTS**

The institutional support of the studbook by Houston Zoo, Inc. is appreciated.

Sincere thanks to Lis Hudson for the huge amount of work she put into tracking down the historical information for the first edition of this studbook. For this third edition, her impact is still felt.

Thanks again to Laurie Bingaman Lackey for continuing to answer my questions and provide moral support.

Tim Junker, keeper at the Houston Zoo provided the great photos of wild roseate spoonbills at High Island in south Texas.

Finally, a very big thank you to all of the registrars who kept coming up with information and suggestions as I bombarded them with questions during data gathering and clean up. Your willingness to help, combined with the speed of email attachments, continues to be a life-saver. Extra thanks to those who add studbook numbers to their records, which really makes my life easier.

## **STUDBOOK DISCLAIMER**

Copyright 2010 by Houston Zoo, Inc.. All rights reserved. No part of this publication may be reproduced in hard copy, machine-readable or other forms without advance written permission from the Houston Zoo, Inc. Members of the Association of Zoos and Aquariums (AZA) may copy this information for their own use as needed.

The information contained in this studbook has been obtained from numerous sources believed to be reliable. AZA and the Houston Zoo make a diligent effort to provide a complete and accurate representation of the data in its reports, publications, and services. However, AZA and the Houston Zoo do not guarantee the accuracy, adequacy, or completeness of any information. AZA and the Houston Zoo make no warranties or representations of any kind, express or implied, including but not limited to warranties of merchantability of fitness for particular purpose. AZA and the Houston Zoo disclaim all liability for errors or omissions that may exist and shall not be liable for any incidental, consequential, or other damages (whether resulting from negligence or otherwise) including, without limitation, exemplary damages or lost profits arising out of or in connection with the use of this publication.

Because the technical information provided in the studbook can easily be misread or misinterpreted unless properly analyzed, AZA and Houston Zoo, Inc. strongly recommend that users of this information consult with the studbook keeper in all matters related to data analysis and interpretation.

## **GEOGRAPHIC AND CHRONOLOGIC SCOPE**

This edition of the North American Regional Roseate Spoonbill Studbook contains information for birds that were held in facilities in North America (Canada, United States, and Mexico).

The earliest bird recorded in the studbook was obtained by the Philadelphia Zoo in 1904. Data is current to 15 July 2010.

## **CONVENTIONS**

All birds whose origins were unknown were designated as wild caught if they were obtained before 1970. The first recorded hatch of a Roseate Spoonbill in captivity was in 1967 at the Fort Worth Zoo, followed in the early 1970's by hatches at the Houston, Gladys Porter and Dallas Zoos.

## DATA FIELD DESCRIPTIONS

The North American Regional Roseate Spoonbill Studbook uses the Single Population Animal Record Keeping System (SPARKS) program, version 1.54.

STUD #: Birds permanent studbook number

SEX: M = male  
F = female  
? = unknown

HATCH DATE: Date when bird hatched  
~ is used when only an approximate date is known  
???? is used when the hatch date is unknown

SIRE and DAM: Studbook numbers for the bird's sire and dam  
WILD is used for wild caught individuals  
UNK is used when the identity of a parent is unknown  
MULT is used when the identity of a parent or parents is limited to a group of known animals who cannot be individually identified. In some cases the sex of the potential parents is also unknown. See Mult Listing for details.

LOCATION: The facility where the bird was maintained  
See Institution List for complete name and address information.  
PRIVATE is used when the bird is owned by an individual

DATE: The date on which the bird arrived at a facility  
~ is used when only an approximate date is known  
???? is used when the date is unknown.

LOCAL ID: The facilities local identification number.  
"\_\_\_\_\_" is used when the identification number is unknown

EVENT: Capture (caught from the wild)  
Hatch  
Transfer (physical move) - If a bird is no longer traceable, 'lrf' (lost-to-follow up) will appear to the left of the last Transfer  
Death  
Escape – birds that escaped and were not recaptured  
Release – birds released to the wild, usually after rescue and rehabilitation
